EXPERIENCE

FRONT END DEVELOPER

Wired Campaigns | February 2018 - Present
– Columbus, OH

Key contributor to agency's client-based development of e-commerce products, ranging from search engine optimization to website development using content management systems

- Created technology standards and guidelines designed to foster maintainable coding practices and system design while ensuring these standards are implemented across all consultants
- Conducted code reviews and any other inspections necessary to ensure projects meet established standards
- Developed widgets based on client prerequisites to optimize user and consumer efficiency
- Improved client reach through updating SEO and creating interactive web-based marketing campaigns

EDUCATION

THINKFUL

Full-Stack Web Development Program
Completed September 2019

- Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, and algorithms and data structures
- Created and deployed mobile-first applications while learning new languages and frameworks by collaborating several hours every week with a senior web developer
